

Drilling Project Manager / Superintendent

WellPerform is looking for an experienced Drilling Project Manager in Mumbai to lead and coordinate the efforts of an engineering team.

As Drilling Project Manager you will be the daily focal point for WellPerform in the client's office. You will coordinate and participate in planning and execution of two offshore wells for our client. You will play a key role in carrying out the work.

Through both written and oral communication, you will ensure that the client is kept updated with project progress.

You must have proven leadership skills with a keen eye to people, and previous experience with working in India.

JOB DESCRIPTION / AREAS OF RESPONSIBILITIES:

- Manage WellPerform team of engineers, logistic and HSE personnel in the client's office and offshore supervisory personnel
- Coordinate WellPerform team efforts with client requirements
- Ensure that WellPerform Well Delivery Process is followed and documented
- Ensure that project deliverables are presented timely and to company and client standards
- Daily communication with offshore team and safe implementation of drilling and test programmes
- Maintain a strong safety culture and performance measures
- Mentor and coach team members as required

MINIMUM REQUIREMENTS:

- 15 years oil & gas industry experience of which 5 years as Project Manager / Superintendent for Offshore oil & gas projects
- Above average communication and social skills
- Experience with working in India
- Ability to understand and implement Project Management principles
- Diploma or equivalent Bachelor/Masters degree in engineering
- Competent user of MS Office products
- Proficiency in several languages is a benefit

Please submit your application and CV together with complete documentation of above experience to hr@wellperform.com before 31st March 2020.
